Statement of Audit

February 23, 1948

Board of Selectmen
Temple
Maine

Gentlemen:

In accordance with Chapter 80, Section 116, Revised Statutes of 1944, and at your request, the records of the Town of Temple have been audited by Auditor R. M. Stetson for the period February 14, 1947 to February 14, 1948, inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the town appear to have been appropriately handled, with exceptions as noted in the accompanying comments.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted,

Very truly yours,

RICHARD M. STETSON,

Auditor.

COMMENTS

Re: Audit of Accounts — Town of Temple
February 14, 1947 to February 14, 1948

CASH

All receipts were checked in detail and as far as could be determined from this examination, all monies were accounted for.

The check book balance was reconciled with the bank statement.

Check book balance plus cash on hand agreed with the cash balance at the close of the books.

All payments, except one, were made by check from properly authorized warrants. The exception was \$100.00 for a new Library Trust Fund, which was deposited in a savings bank directly without having been put on a warrant.

TAXES RECEIVABLE

The 1947 commitment book was checked against the valuation book and found to agree. This commitment was accounted for by cash paid the Treasurer, abatements, and outstanding taxes at the close of the year.

Transactions affecting prior years' taxes were checked and taxes remaining unpaid were listed. The 1946 Collector was found to have overpaid by \$14.34 and this has been set up as an account payable. During the course of this audit it was noted that there was no change in the uncollected taxes prior to 1941. It was also noted that not all taxes against real estate remaining unpaid had been secured by liens or deeds.

TAX LIENS

All transactions affecting tax lien accounts were examined and the liens remaining unpaid were listed.

ACCOUNTS PAYABLE

This account comprises the \$14.34 previously mentioned as overpaid by the 1946 Tax Collector, \$1,200.00 owed on the snow removal contract, and a \$0.63 overpayment on tax liens.

ACCOUNTS RECEIVABLE

This account represents balances due from the State on Winter Roads and Special Resolve.

SURPLUS

The year's operations resulted in a net decrease in the surplus of \$311.09; this leaves a balance of \$4,684.01.

TRUST FUNDS

At town meeting the Selectmen were authorized to reimburse the

Trust Fund Account. During the year there was a new trust fund established for the library, to be used for the purchase of books. Detail appears on Schedule A-6.

GENERAL

In town meeting it was voted to pay the tractor account balance of \$225.00 to Mark Mosher.

Notes payable amounting to \$500.00 to S. G. Hodgkins were paid off by a vote at town meeting.

In a special town meeting it was voted to take \$300.00 from Surplus to be used on State Aid Road Construction.

Excise Tax Receipts were checked and found to agree with the remittances to the Treasurer.

The Tax Collector, Treasurer, and Road Commissioner furnished corporate surety bonds.

Vouchers and payrolls were examined and found to be incomplete; disbursements in this report were made from warrants which were not, in all cases, supported by vouchers.

Records of the Tax Collector were found to be in very good shape.

A 1943 tax lien in the amount of \$37.10 was paid, inasmuch as this lien was not in previous years' listings of liens outstanding, it was credited to the unappropriated surplus account.

RECOMMENDATIONS,

It is recommended,

THAT, detailed vouchers be kept on file to support all payments. This should include itemization of expense accounts of town officials.

THAT, the Treasurer issue cash receipts for monies withheld from payrolls on Withholding Tax and M. T. R. A.

THAT, Taxes Receivable prior to 1941 be checked and those not collectible be written off.

THAT, Tax Liens prior to 1942 be checked and those not collectible be written off.

Report of Superintendent of Schools

To the Superintending School Committee:

Submitted herewith is my annual report of the schools of Temple for the fiscal year 1947-48.

Temple schools are being taught this year by Mrs. Ruth Bryant at the Intervale School and by Mrs. Marjorie Josselyn at the Village school. The town is fortunate in being able to secure teachers as capable as Mrs. Josselyn and Mrs. Bryant. In these times with so many opportunities for teachers, many are reluctant to take on the arduous tasks of a one room rural school. In this connection, if suitable conveyance could be afforded and a few alterations made at the Village school, it would seem that better opportunities could be provided the children by bringing both schools to one building with two teachers. It is thoroughly realized, however, that such a program would cost more in actual dollars and cents. But, in asking ourselves "can we afford to do it?" we should also ask "can we afford not to do it" if the welfare of the children is at stake.

It is quite probable that in the near future towns will be expected to have available for every school a water supply which will meet the health standards set up by the state for public drinking water. We have already been required to submit for analysis samples of the water used in each school. The source of water being used at the village school meets very satisfactorily those standards, but the sample submitted for the Intervale school failed to conform to such standards. If school is to be continued at the Intervale, consideration should be given to this problem in the near future.

The new lights at the Intervale school and the new furnace at the Village school are conveniences which were greatly needed.

The enrollment in the two schools as reported by the teachers is as follows:

	Grade PP.	1	2	3	4	5	6	7	8	Tot.
Village	1	2	4	2	1	2	1	0	3	16
Intervale	1	1	0	2	2	2	2	0	2	12
Total	2	3	4	4	3	4	3	0	5	28

In connection with the school budget recommendations submitted herewith, it should be noted that the appropriation for high school tuition is considerably higher than in previous years. This is due first to increased tuition rates being charged for high school and secondly to increased high school attendance which derives from the fact that no pupils from Temple are graduating from high school this year while five will be graduating from elementary school and probably enter high school.

Report of Public Health Nurse

TEMPLE — DECEMBER, 1947

Again we pause to review the public health nursing service for the town of Temple. As in years past new problems have arisen, old problems have been solved, and, of course, there are those which remain as a challenge for our future efforts.

Conferences have been held with your teachers and all apparent health problems have been discussed. When indicated home visits have been made in an effort to interpret the health needs of the school child and where necessary to help parents plan for corrective work to be done. Seventeen children in grades three through the eighth were given the audiometer test. No children with defective hearing were found in this group.

Conferences have also been held with your physician regularly at which time the health of the individuals have been under discussion. By working in close cooperation with the family physician it is possible to bring about a more complete understanding of the health needs of each person within the community. Home visits have been made to expectant mothers, new mothers, infants, preschool, school and crippled children.

As we plan for the year to come we must keep in mind the importance of a well-rounded health program. It is our responsibility to help prevent the handicaps of ill health and to assist in providing opportunities for the development of a good healthful environment for all.

As always it is a pleasure to work with the people of Temple and to feel so much "at home" in your town.

Respectfully submitted,

HAZEL J. HOYT, R. N.

Public Health Nurse.

Art. 33. To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.

Art. 34. To see if the Town will vote to authorize the Selectmen, on behalf of the Town to sell and dispose of any real estate acquired by the Town for non-payment of taxes thereon, on such terms as they deem advisable, if such terms are posted in a public place 5 days before sale is consummated, and to execute quit claim deeds for such property. Also, former property owners of acquired real estate shall be notified of intent of sale.

Art. 35. To see if the Town will vote to pay Thornton Thordike ten dollars for taking apart and removing the old furnace in the village schoolhouse.

Art. 36. To see if the Town will vote to allow Sunday sports for the ensuing year.

Art. 37. To see if the Town will vote to raise the sum of One Hundred Dollars for Poor acct. and deficit of \$450.56.

The Selectmen will be in session at their office on the Seventh day of March, at nine o'clock A. M., for the purpose of correcting the list of voters.

Given under our hands this 16th day of February, A. D. 1949.

JOHN PALMER,
RALPH GOODWIN,
PAUL DALRYMPLE.

Statement of Audit

February 23, 1949

Board of Selectmen
Temple
Maine

Gentlemen:

In accordance with Chapter 80, Section 116, Revised Statutes of 1944, and at your request, the records of the Town of Temple have been audited by Auditor R. M. Stetson for the period of February 15, 1948 to February 17, 1949.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the town appear to have been appropriately handled, with exceptions as noted in the accompanying comments.

Exhibits and schedules incorporated in this report impartially present the financial position of the town and the result of its operations for the period designated.

Comments and other data incorporated in this report may prove of interest to you. All of which is respectfully submitted,

Very truly yours,

RICHARD M. STETSON,

Auditor.

Re: Audit of Accounts—Town of Temple
February 15, 1948 to February 17, 1949

CASH

All receipts were checked in detail and as far as could be determined from this examination, all monies were accounted for. The check book balance was reconciled with the bank statement. Check book balance plus cash on hand of \$20.33 agreed with the cash balance at the close of the books.

All payments were made by check from properly authorized warrants, except for the check charges which were deducted by the bank each month, total of \$6.50. An amount of \$3,288.00 (Note Payable—Franklin County Savings Bank) obtained for the purchase of a Fire Truck was shown on a receipt and on a warrant but only as a memo, the actual cash was paid direct by the bank to the agency selling the truck.

TAXES RECEIVABLE

The 1948 commitment book was added and checked against the valuation book and, except for a 40c overage, agreed with it. This commitment was partially accounted for by cash, abatements, account receivable; balance due was reconciled with the detail of Taxes Receivable. The commitment being late, said outstanding taxes are not overdue.

Transactions affecting prior years' taxes were checked and taxes remaining unpaid were listed. The 1947 commitment was entirely accounted for, years prior to 1947 remained unchanged. It was noted that not all of taxes against realty remaining unpaid had been secured by liens or deeds.

TAX LIENS

All transactions affecting tax lien accounts were examined and the liens remaining unpaid were listed. See Sch. A-11.

ACCOUNTS RECEIVABLE

This account is comprised of balance due from the State on Snow Removal — \$2,306.99, Town Farmington, overpayment on tuition \$100.00, Tax Collector 2c, and balance due from the State on Special Resolve (1947) \$60.00.

ACCOUNTS PAYABLE

This account is comprised of 63c due Faith Knowlton for overpayment on a tax lien and the balance due Roderick on the snow removal contract \$1,296.00.

NOTES PAYABLE

Comprised of a note with the Franklin County Savings Bank with a balance due of \$2,788.00 and a note with the Peoples National Bank with a balance due of \$2,000.00. First note was incurred for purchase of a Fire Truck. Second note represents balance due Tax anticipation loans for the current year, audited.

NET DEBT

Due to overdrafts on operational accounts and \$4,268.00 spent for purchase of Fire Truck and Hose, there was a change from a surplus to a net debt of \$109.35. Should the town raise additional amounts of money, to cover said overdrafts, in the coming year this debt should again become a surplus.

TRUST FUNDS

All transactions affecting the trust funds were checked and were properly accounted for. For details see Sch. A-8.

GENERAL

The State handled the State Tax by deducting; Dog Tax Refund \$13.56, School Fund \$737.00 and R. R. & Tel. Tax 35c, leaving a balance due of \$518.70 which was paid. The State showed amount due on School Fund \$2,271.21 and \$216.66 balance due from last year, against this were deducted; \$737.00 applied towards State Tax, and balance \$1,750.87 paid to Farmington to be credited on Tuition for Temple. Temple overpaid Farmington \$100.00 on tuition which amount has been set up as a credit on their books for the next year. These transactions were handled by journal entries.

Balances due on W/H Tax and M.T.R.A. differed from those of the town due to difference in balances forward from previous years. It is suggested the town check on these differences with the proper agencies to see if it can be settled.

It was voted in town meeting to borrow money for purchase of Fire Truck and to purchase Fire Hose with funds from the Surplus account.

Excise tax collections were checked in detail and found to agree with the remittances to the Treasurer.

Tax Collector and Treasurer furnished corporate surety bonds.

Vouchers and payrolls were test checked, those so checked appeared to be in order.

Records of the Tax Collector were in excellent shape.

RECOMMENDATIONS

It is recommended,

That Treasurer issue receipts for monies withheld on payrolls for W|H Tax and M.T.R.A.

That total amounts be charged on warrants for School and Road accounts, i.e. before the W|H Tax and M.T.R.A. are deducted.

That taxes and tax liens receivable, prior to 1942, be checked closely and those not collectible be charged off to the reserve for losses on taxes and tax liens. To more truly show the assets of the town.

Report of Superintendent of Schools

To the Superintending School Committee:

Herewith is submitted my annual report of the schools of Temple for the fiscal year 1948-49.

Altho we were forced to close the Intervale School last September because of the teacher shortage, it is quite probable that the children from that district have been afforded better school opportunities than they might have, had the Intervale School been opened. At the present time, unless teachers can be secured locally, it is almost impossible to secure the type of qualified teacher needed in one-room rural schools. Altho it is difficult for any teacher to handle several grades, the enrollment at the village school is not now in excess of what one teacher can handle. We are indeed fortunate in having a teacher with Mrs. Josselyn's qualifications and ability. If the time comes when two teachers are needed at Temple, it would be to the children's advantage to employ two at the village and continue conveyance even tho it would cost more in actual dollars. Under the present arrangement the town is saving money and at the same time receiving a greater return on investment. With the present shortage of teachers, which will continue for several years, and with the present enrollment at the village, I cannot recommend reopening of the Intervale School.

If money can be made available, some painting should be done at the village school during the coming year.

The following budget is recommended for the fiscal year 1949-50. It will be noted that this is considerably less than last year which is due to a great extent to the closing of the Intervale School.

Annual Report of Public Health Nursing Services

TEMPLE — 1948

The Public Health Nursing service to your town was interrupted for a short time this past year while your nurse attended school. During her absence service to the town was available directly through the office of the district supervising nurse.

Home visits have been requested by the physicians and by the teachers where advice concerning health needs of children or adults seemed to be indicated. These visits have been made insofar as possible and the nurse has found the families cooperative and interested in the health of themselves and of their children.

Temple has a large population of infants and preschool children a large percentage of which have never been protected against smallpox, diphtheria or whooping cough. Neither do these children receive physical examinations until they have already become ill. Child health conferences arranged and staffed by a group of volunteer workers working with your public health nurse would provide a means by which children might receive these advantages. A physician from an adjoining town would examine and inoculate the youngsters and assist the mothers with problems concerning the health of their children. Possibly a group of interested women might be able to plan for such a program in the year to come.

I wish to thank the people of Temple for the cooperation and help which I have received during my work with them.

Respectfully submitted,

HAZEL H. BARKER, R.N.

Public Health Nurse.
